The Chicago Record in describing the sportsmen's exhibition notices the following Arizona features: The Coliseum presents the appearance of a vast miniature forest filled with fish and game of every description and brought from every corner of the globe. Prospectors are swarming over the probable route of the Salt Lake Railway in the hope that each may strike the direct line of travel, says the Los Angeles Times. At Daggett, ten miles from Barstow, the mining excitement is intense, many claim-holders receiving offers every day for their properties. The ore is of low order, but the possibility of cheap transportation has placed an additional value upon the mines. At Good Springs investors are securing every available acre of supposed mining land, while at Victor, and to the east capitalists are investing money.
